

**“FAUNEMES”**  
**Walking Performance “theater and sound” for street  
and large indoor places**

**Technical conditions**

- A “reperage”, or check-up tour is desirable in order to determinate the playing places  
(acoustic quality of the place, reverberation of the floor, ...)

It can be done with photos and plans (maps, layouts, schemes...)

The sound scattering’s device use the ground’s reflection.

This is why the ground should not be absorbent (no grass, sand, carpet...)

"Faunèmes" is performed in three fixed acts with move between each act.

Ideally, three play areas (each about 10 x 8m + public space), close to each other are desired.

Otherwise, "Faunèmes" can be played on one or two spaces

The performance should happen during day-time. If it’s at night, a light technical list has to be made according to the existing lighting on the play-ground.

In summer, the performance won’t be possible at the really hot hours (more or less from 11am to 4pm)  
due to the summer heat (places and hours should be choosen in consequences)

It is important not to have too much noise pollution during the performance  
(other music shows or sound performances, funfairs, noisy traffic jam...).

A secure car-park should be at our disposal for the whole time of our stay  
(It should be at the charge of the organiser if the park is necessary)

- Dressing room of 30m<sup>2</sup> minimum, preferably at street level and available 24h/24.

It is for 5 people and should be close to the performance’s playing spaces (100 metres maximum).  
Toilets and shower needed (especially in summer) and standard power supply (220V) with an adapter  
8 meters long’s table(s), 5 chairs and 2 mirrors at least.

- For our organisation (batteries loading, warming-up and dressing ), you should anticipate our arrival at the  
festival at least 6 hours before the performance (3 hours minimum afterwards).

However, beyond 300 km drive from our place, arrival must be anticipate the day before the performance.

Minimum Playing Space : 10 x 8 Metres

Performance Duration : 60 minutes

Capacity : 300 to 400 people
